---

## PROFESSIONAL EXPERIENCE

### Centre for Railway Information Systems (CRIS)

**05 June 2023 - 05 July 2023**

#### Frontend Developer (Intern)

Chanakyapuri, New Delhi, 110021

- Engaged in internal projects for Indian Railways, I acquired hands-on experience in post-deployment website management. This involved mastering the art of bug resolution and executing updates once websites were live. In addition to frontend proficiency, I gained valuable insights into backend website development, enhancing my holistic web development skill set.

### SRM Institute of Science and Technology

**30 August 2023 - Present**

#### Directorate of Student Affairs (DSA)

Chennai, Tamil Nadu, 603203

- Collaborated with mentors and a peer group, fostering skill growth and achieving a 25% increase in project productivity.
  - My responsibilities include working on the backend systems for both my club's website and SRM University's cultural festival website.
- 

## PROJECTS

- Paragraph Modifier** React JS | JavaScript | Bootstrap  
It offers an intuitive platform for users to customize and format text paragraphs effortlessly. With this application, individuals can easily manipulate text properties, such as font style, and order, to tailor paragraphs to their specific preferences and needs.
- Password Manager** Express JS | JavaScript | HTML | CSS | MongoDB  
Developed in Express JS, serves as a robust solution for securely storing and managing sensitive passwords since there is a login procedure in it.
- Notes Manager** HTML | CSS | JavaScript (Vanilla)  
Crafted using Express JS, provides users with an efficient way to organize and store their notes digitally. This application allows users to create, edit, and categorize notes, ensuring a streamlined and organized approach to note-taking and retrieval.
